# RIZZOLI INTERNATIONAL WORKSHOP ON ORTHOPLASTIC SURGERY

2026

11-12-13 MAY  
RIZZOLI ORTHOPAEDIC INSTITUTE  
BOLOGNA, ITALY

ADVANCED PROGRAM

## FOREWORD

For more than three decades the principles and practice of Orthoplastic Surgery have evolved to a point where this collaborative discipline has been globally recognized as the proper approach to extremity reconstruction and limb salvage.

The organizers of the Rizzoli International Orthoplastic Workshop, that will be held at the Rizzoli Institute in Bologna-Italy, have formalized the concepts and techniques of Orthoplastic Extremity reconstruction into a course that details the approach to complex reconstructive problems that require a multidisciplinary approach and integrative thinking.

A world class faculty of Orthoplastic Leaders will provide personal instruction with lectures, panel discussions, video dissections, case presentations and cadaveric dissections.

Enrollment is limited to optimize learning and interactive discussions among faculty and learners.

## MAIN TOPICS
